Lihon Gebre

AI & Backend Engineer | Workflow Automation

Addis Ababa, Ethiopia | lihongebre@gmail.com
Portfolio: www.lihongebre.com
github.com/gelftheshot | linkedin.com/in/lihongebre

SUMMARY

AI and backend engineer building conversational AI and retrieval-augmented generation (RAG) systems, backend APIs, and workflow automation.

TECHNICAL SKILLS

AI & automation: RAG, LangChain, Pinecone, Vector retrieval, Conversational AI, n8n

Backend: Python, Django, Node.js, Express.js, REST APIs

Data: PostgreSQL, MongoDB, MySQL, Redis

Cloud & delivery: AWS, Docker, Kubernetes, CI/CD, Nginx, Linux

Web: JavaScript, TypeScript, React, Next.js

PROFESSIONAL EXPERIENCE

NDIT Solution | AI, Backend & Automation Engineer | 2023 - 2025

- Integrated AI functionality with backend service interfaces and application data flows.
- Connected workflow steps with validation and human review.

ALX Africa | Backend Developer (Internship) | Mar 2023 - Nov 2024

- Developed Python and Django backends with RESTful API integration.
- Optimized database access.

Axious Tech | Backend & Infrastructure Engineer | 2020 - 2023

- Developed backend application logic, service interfaces, and data persistence.
- Maintained runtime configuration, deployment environments, and application diagnostics.

Anbesa Tech | Full Stack Developer | 2018 - 2020

- Connected web interfaces, backend logic, and stored data across full-stack applications.

Freelance | Backend Developer | 2017

- Developed server-side logic, service interfaces, input validation, and data persistence.

Yehulu Tech | Backend Developer | 2016 - 2017

- Implemented request handling, application rules, and data models; debugged backend behavior.

Lihon Gebre

SELECTED PROJECTS

SeaSure | AI & Backend Engineer

Boat-specific AI troubleshooting, multimodal guidance, maintenance records, and contextual handoffs to marine service professionals.

Focus: Multimodal AI, Context engineering, Vessel intelligence, Knowledge retrieval

www.lihongebre.com/projects/seasure

Projuno | AI & Backend Engineer

AI-powered construction operations connecting project workflows, financial visibility, change traceability, and compliance records.

Focus: Workflow orchestration, Conversational AI, Data traceability, Process automation

www.lihongebre.com/projects/projuno

Dr. Infinity | AI & Backend Engineer

Clinical knowledge AI combining medical knowledge graphs, concurrent vector retrieval, evidence grounding, and privacy-aware ingestion.

Focus: Hybrid RAG, Knowledge graphs, SNOMED CT, MeSH

www.lihongebre.com/projects/dr-infinity

CERTIFICATIONS & TRAINING

n8n102 - Integrations: APIs and Connected Workflows | n8n | Oct 2026

n8n101 - Essentials: Your First Workflows | n8n | Sep 2026

AWS Cloud Practitioner Essentials | Amazon Web Services (AWS) | Sep 2024

ALX Software Engineering - Backend Specialization | ALX | Jul 2024

EDUCATION

Bachelor of Science, Computer Science | Addis Ababa University

Accelerated Software Engineering Program | ALX

LANGUAGES

English: Fluent | Amharic: Native
